

CENTRAL INTELLIGENCE AGENCY

WASHINGTON 25, D. C.

OFFICE OF THE DIRECTOR

28 February 1964

MEMORANDUM TO ALL EMPLOYEES

1. The 1964 Spring Federal Service Campaign, in support of the National Health Agencies and the Federal Service Joint Crusade, will be conducted in the Agency during the month of March. We are asked once a year to contribute to the national voluntary health organizations and to four international agencies: CARE, Radio Free Europe, the American-Korean Foundation, and Project HOPE.

2. Our contributions to the health agencies will help to conquer dread diseases and to promote better health for all mankind. By contributing to the Joint Crusade, we take a personal part in helping to relieve sickness, poverty, hunger, and oppression throughout the world. We can be proud of our past record of generosity. I hope your response in 1964 will enable us to attain our goal -- a voluntary gift from everyone and a higher rate of contribution.
